FINANCIAL MARKETS OFFER HEDGE ADVISORY

Hedging for large infrastructure projects and M&A transactions All levels of experience

At ESTER, financial markets mean helping our clients build tomorrow's world by managing their interest rate, currency and commodity risks as effectively as possible. We are looking for profiles of all seniorities, ideally with a first experience in financial markets, and good quantitative and commercial skills to support ESTER's clients in the structuring, documentation and execution of their hedging strategies.

MAIN RESPONSABILITIES

- Assistance in the structuring, negotiation and execution of hedges mainly on interest rates and foreign exchange, sometimes on other asset classes such as credit, inflation, equity or commodities
- Assistance in the definition and implementation of a hedging strategy in the context of special situations (M&A, restructuring, etc...)
- Pricing of derivatives and structured products, analysis of XVAs...
- Assistance to our clients at time of execution of their transactions
- Market risk management on various issues involving our clients' front office and risk departments
- Supporting ESTER's clients in high-stakes negotiations
- Shape/advance internal technical projects (development of internal tools etc...)

ABOUT YOU :

- For entry level profiles: M2 student from a top-tier engineering school (X, Mines, Centrale, Ponts et Chaussées, ENSAE...), from a top-tier business school (HEC, ESSEC, ESCP, EDHEC, EM...) or from a university education (Dauphine...) with a specialization in financial markets
- For experienced profiles: Experience in structuring, derivatives trading, XVAs, market risks
- Excellent oral and written French and English. A third European language is a plus
- Excellent knowledge of Excel, and if possible, of Bloomberg / Reuters - Programming skills (VBA, Python, C#...) are a plus

ABOUT US

- A firm specialized in financial markets, recognized for its expertise and technicality
- Based in Paris 8th arrondissement near the Place de la Madeleine.
- Founded in 2009 by former trading desk professionals (Goldman Sachs and IXIS)
- More than 150 clients with a strong international exposure
- Young and dynamic structure with a start-up spirit

On our website (www.esterfinance.com), you will find:

- Our publications
